Tiny Tips For Your Model A

Book Available at MAFCA.com

CRANKCASE VENTILATOR

I have eliminated my Model A blowby problem and have cleaner oil too! Several years ago, another Model A enthusiast suggested using a tube from the valve side cover plate to the intake manifold to route the fumes from the crankcase. This was good. What I have done is to embellish upon it.

Inside the oil filler cap, I have added a stainless steel pot and pan scrubber (like real coarse steel wool), available at any market. To this I have added a PCV valve (Lee #LV-61) for a 225 C.L.D. Slant Six Valiant engine, which is of fiberglass composition with stainless steel parts.

Remember, the best way to get full enjoyment in the club is to get involved! From joining us at meetings & tours to volunteering for a position, or just volunteering for one specific activity, it all helps to get to know your fellow members & gain maximum enjoyment out of this wonderful community of Model A Ford enthusiasts!

Lunnet

This year we only had two houses to go to for the Lunnet. So it turned into a lunch with dessert (Lunnet!!) Those who came in their A's were Jack C., Randy, Fred, John G., Lorne, George & Alice, Aaron & Robin, Eric & Margaret, Alan & Rene', Bill W. and Truett & Jill. Cyndy came later. John & Murph and Christine & Margo were busy getting food ready. Alan & Rene' were busy barbequing & getting bread toasted. John G. came in his Plymouth. **Thank you** to John & Murph, Jack & Margo, Christine & Lorne, Alan & Rene' and Truett & Jill for providing either food, drinks, plates, utensils, etc. or homes or both and their time & efforts to make this a great activity!
